All of the different Purple Mash programs including the typing programs and the database program can be found in the tools section:

2Investigate is the database program, when you launch the 2Investigate app you can select the minibeast database which has all the answers in it for this week's quiz.

This lets you sort and group the minibeasts to check the number of legs and wings etc to answer the quiz questions, you might need to have it open in 2 tabs so you can toggle between the quiz and the database.

If you want to type up your written work, we recommend using 2Publish. Again go into the Tools button when you first log on and select 2Publish (in the English Apps)

Once you've launched the app you'll be given a range of options on how to lay out your work:

pi m	lome 2Dos	e 2Dos Work Data Sharing Teachers Admin Help Alerts						Caz Fullstone		
4	Home/Tools/2Publish						Search T Add filter			
**	All about	Alphabet writing	Alphabet picture	Book cover	Card	Card 2	Feeling hungry?	Game design	He said, she said	
	I have found out	My character is	Page border	Pages of a book	***** ***** ***** ***** ***** Pattern	Picture and text	Read All About It	Sequence this	Special delivery	
	Storybook	Symmetry 1	Symmetry 2	Wanted	What I have learned	Storyboard - 3 frames	Storyboard - 4 frames	Storyboard - 6 frames		

Don't forget to save your work when it's finished! 😊

Hope that helps!
